## WORK EXPERIENCE

### SaiKet Systems

Frontend Web Development Intern

April 2025 - May 2025

- Designed and developed **responsive web components** using HTML, CSS, and JavaScript.
- Built key UI projects including a **responsive blog page**, **product card**, and a fully functional **To-Do List application**.
- Gained practical experience in creating **adaptive layouts** and optimizing user interfaces for various devices.
- Collaborated closely with senior developers, following best practices in clean, maintainable, and scalable code.
- Strengthened skills in **version control** (Git/GitHub) and modern frontend workflows.
- Improved problem-solving, attention to detail, and team communication through real-time project collaboration.

## EDUCATION

### Rajasthan Technical University, Kota

Btech in Computer Science and Engineering

2024 - 2028

## PROJECTS

### Personal Portfolio Website

Jan 2025 - May 2025

- Designed and developed a **fully responsive**, animated personal portfolio website to showcase my skills, projects, and contact details.
- Implemented features like **typed text animation**, **fixed transparent header**, animated profile section, skill bars, and a functional contact form using **Formspree**.
- Ensured **cross-device responsiveness** and smooth user experience across mobile, tablet, and desktop screens.
- Hosted the project using **GitHub Pages** and maintained source code on GitHub.

### To-Do List Web App

April 2025 - May 2025

- Developed a **responsive** and interactive To-Do List app with features including task addition, editing, deletion, and **real-time completion tracking**.
- Implemented a modern **glassmorphism UI** with blurred transparent backgrounds for an elegant user experience.
- Integrated dynamic **task counters** displaying total and completed tasks to enhance user productivity insights.
- Applied **DOM manipulation** techniques and **event handling** for seamless interactivity and state management.

## SKILLS

**Languages/Technologies:** HTML, CSS, JavaScript, C, C++

**Frontend Concepts:** DOM Manipulation, Responsive Design, Event Handling

**UI Design:** Modern Layouts, Glassmorphism, Animated Elements, Font Awesome

**Tools:** Git, GitHub, VS Code
